## LIVE THE FEAST OF SAN JUAN AT FAUSTINO RESTAURANT

June is a special month in Ciutadella. The feast of San Juan, which is celebrated mainly on 23 and 24, paralyzes any activity which has nothing to do with this ancestral tradition with more than six centuries of history. And of which in Faustino Gran we leave a nuance in the form of portraits and photographs that adorn our walls

### SANT JOAN, A PEASANT FESTIVAL

The root of the feast of San Juan is, above all, religious. The origin is approximately in the 14th century when the Obreria de San Juan Bautista began a pilgrimage on horseback to the hermitage located on the road to Sant Joan de Missa. In this pilgrimage, the representatives of the social classes of that time participated: the nobility, the clergy, the artisans, both teacher and apprentice, and the peasants, one from the north and the other from the south of Ciutadella. Most of this entourage, however, was led by the peasants who, after the harvest, made the offering to the saint.

From here the main figures of the festival emerged: the “caixer Capellà”, representative of the clergy; the "caixer Senyor", representative of the nobility; the “caixer Fadri” and “Caixer Casat”, the artisans; and the “caixers Pagesos”, the representatives of the field. The rest of the entourage, to carry out the pilgrimage on horseback, are called "cavallers" or knights. These figures have been around for centuries, to this day.

### HORSES CONQUER CIUTADELLA

In addition to the pilgrimage, which is celebrated on the 23rd in the afternoon, the feast of San Juan has been incorporating other important moments. And most of them take place in the historic center of Ciutadella. From some of the Faustino Gran terraces, you can perfectly see the “Jocs des Pla”, one of the most anticipated events due to its spectacularity and color, and during which events of medieval origin are held on the back of magnificent horses.
